

WOMEN'S ANIMAL CENTER

Volunteer of the Month

JUNE CURRAN

It seems only appropriate that our volunteer of the month for June be June herself! June has been volunteering with us for about a year and a half, and right from the start, dove head first into all things cats. She was an early member of our Cat Pawsitive Pro team, and she continues to work with our more difficult cats – drawing them down from their shelves with the promise of treats.

With cats that often display reactive and overstimulated behaviors with everyone else, June often will remark, “Huh – it’s never done anything like that with me!” And, honestly, that doesn’t surprise me. While sometimes I find June lecturing the cats about not being jerks or not making a mess, what I most often see is her enormous capacity for compassion and care come through with them.

In addition to helping our cats come out of their shells, June recently started helping out with our Story Tails program and has taken on the new role in stride.

THANK YOU, JUNE!

We’re so thankful you’re a part of our team!
