

WOMEN'S
ANIMAL CENTER
Volunteer of the Month

KAREN JACKAWAY

Karen started with Women's Animal Center in December of 2017, and even though her initial intent was to work the dogs, most of her time here has been spent cleaning, sanitizing and filling the Kongs and giving every dog on the adoption floor a treat. She comes in early on Saturday mornings, and with laser focus, she rips through the cleaning, sanitizing, filling and freezing of the Kongs. I know every time Brian comes in to see her at work, he breathes a sigh of relief. Recently, Karen has finally started adding dog walking to her routine, and I know the dogs will benefit from her commitment and care.

Karen: you're an all-star, and Women's Animal Center is lucky to have you.

THANK YOU, KAREN!

We're so grateful you're a part of our team!
