

Women's Animal Center Shelter Annual Statistics 2025

Start Date: 1/1/2025

End Date: 12/31/2025

Live Release Rate: 90.80%

The above Live Release Rate is calculated using the Asilomar Accords which is the animal welfare industry's common definition and equations regarding outcomes. Shelters meeting the 90% save rate benchmark are considered no-kill.

The Asilomar equation used below is: $\text{Live Outcomes} / (\text{All Outcomes} - \text{Unhealthy/Untreatable Owner Requested Euthanasia})$.

Women's Animal Center considers Owner Requested Euthanasia to be unhealthy/untreatable animals surrendered with the explicit request of euthanasia or animals that were unhealthy/untreatable at the point of surrender and upon follow up conversations, the surrenderer either expected euthanasia or, following fee waived diagnostics, changed their original intention/request.

INTAKES	Dogs	Cats	Other	Total
From the Public	626	1160	111	1897
Transfers from Organizations	7	68	7	82
Total Intakes	633	1228	118	1979

Owner/Guardian Requested Euthanasia	115	84	8	207
Adjusted Total Intakes	518	1144	110	1772

LIVE OUTCOMES	Dogs	Cats	Other	Total
Adoption	267	785	100	1152
Return to Owner/Guardian	129	32	2	163
Outgoing Transfers	19	2	6	27
Return to Field	0	178	0	178
Total Live Outcomes	415	997	108	1520

HUMANELY EUTHANIZED	Dogs	Cats	Other	Total
Owner/Guardian Requested Euthanasia	115	84	8	207
Unhealthy/Untreatable Shelter Euthanasia	208	136	17	361
Unhealthy/Died/Lost in Shelter	1	28	11	40

Adjusted Total Outcomes	509	1077	128	1714
